

Acceleration Plans from GE Digital

Limited-Time Offer

Reconnect and Save When You Get Back on Support!

In these unprecedented times, industrial organizations are being challenged on multiple fronts to be more productive and more efficient while at the same time reducing costs.

GE Digital's latest Automation and Manufacturing software is engineered to help your organization achieve these outcomes.

In addition to providing new capabilities that support greater agility and remote collaboration, the latest versions of our software also help to reduce risk in this new normal.

Save 60% on our standard reinstatement rates when you commit to a 3-year Acceleration Plan contract!

- Enjoy significant savings on our 1-time Support reinstatement fee – which will provide you with the latest versions of your software.
- Choose an Acceleration Plan level that meets your organization's needs: Standard, Premier, or Enterprise¹
- Once back on Support, take advantage of free software upgrades throughout the duration of your contract.
- Offer expires December 31, 2020

©2020 General Electric. All rights reserved. Specifications are subject to change without notice. 09 2020
 1 – Option to select Enterprise requires the list price of the customer's installed base of GE Digital software to be at least USD 1,500,000.
